A Great Sensation Caused by the Co. lapse of Ex-Gov. Hale, land-Principal Creditors.

Boston, June 6.—A special from Con-cord, N. H., says: "Ex-Gov. Hale, of New Hampshire, whose residence is in Keene, has failed with large liabilities. His house in Keene and his interest in Mexico an Stunday. When, therefore, Mexico and Stunday. When the the interior of Mexico. When the interi

unsuccessful, and that he said not to be a surprise to a few busine men, it has created a profound impression

to the locust, and the sting of which will and party passed the morning in driving kill a human being in two hours.

In 1817 the locusts appeared on May 231; Board of Trade, where the distinguished in 1834 about the same time, and in 1851 visitor was welcomed in a fitting speed on May 26th. The date of appearance by the Hon. J. hm F. Phillips, of this city varied little in 1838 and in 1885. Many of the locusts have died in the ground this briefly upon national topics, the stability pring on account of unfavorable direcun-of our government, that passes unshake stances, and their appearance has been through values political changes, an somewhat delayed by the backward the importance of the development of the spring. The locusts first come in the pupa or soft state, but in a short time become ally fledged. About the end of May they begin to lay their eggs, which are deposited in the tender twigs of trees. As soon as the young attain their growth in the government, and said the learner was not ungrub state they fall to the ground and instruction, but I may not now say that the is the young attain their growth in the government, and said the fear was not un grub state they fall to the ground, and make their way two or three feet undergo case it should not have been wholly so, it is to the growth of the change of the growth of t

seir change into the puna form after will have been allayed within a very sho country. It is claimed that experiments tion, not a nome in this broad land, the further than six feet joto the earth cere friend and agent. He said his visit and that the eggs must come into cor-tact with the earth before they will ad-vance towards life. It will be seventeen witnessing for himself the progress and

or at New Bedford, Mass. ocusis prefer the weeds and sandy places, and not the open fields. Notwithstanding the common idea that they are injurious edy occurred in this city just before noon o vegetation, it appears from high authority that they are not so, except from the damage done by the female in depositing her eggs. Locusts are a favorite food of hogs, equirrels and some of the larger birds, and a favorite dish with the Indians when fried.

By the act of depositing its eggs the level of the store, and without speaking drew the store, and without speaking drew a sould see the store, and without speaking drew and the store are stored to the store, and without speaking drew are stored to the store, and without speaking drew are stored to the store, and without speaking drew are stored to the store, and without speaking drew are stored to the store, and without speaking drew are stored to the store, and without speaking drew are stored to the store, and the stored to the store are stored to the s

OPERA PUFF CIGARETTES are now sold the popular price; 5 cents for 10; 10 cents for 20 The locust is emphatically an American republican insect, and found only in the United States, and that there are two tribes of these insects, differing from each other only in the periods of their liver, the targer family, the Northern, living seventeen years, and the other, the Southern, thirleen years.

Generally these insects begin to leave poration. The new corporation is practically described to the section of the new corporation. the Legislature has neutralized one, at least, of its objections: Napoleon Hill, J.R. Godwin, T.B. Turley, L. N. Snowden, David P. Hadden, James Lee, jr., and H. A. Montgomery. In the hands of these gentlemen the interests of the people are safe.

Ex-President B. B. Haves has disposed in interests of the people are safe through the Bolan Pass, and will build a struction of the struction of the suble, which was removed before the definition property in Omaha. A displacement of the suble at the time, was known. In the stable at the time, was known. In the stable at the stable at the time, was known. In the stable at the stable

dog created great consistential at Dutch Mills last night, running through the streets and bring several persons before the was shot by a police sen. Michael Destroy and of his leg, and was others as actionally lacerated, and it is feared that hydrophebia may result.

Storm on Long Island.

Hunned a Greated great consistenced in the great numbers, and are storm yesterday the large new restaurant building erected at Garden City for the

monics was blown down and the farniture in it destroyed. Many trees are reported to have been uproofed, and a number of mall buildings were blown down on Hempstead plains. Other damage to a covaiderable amount is reported.

street, where rates, freight and passet il peints will be chee fully given. Jan. S. Davant, Gen. F. and P. A. Protect Yourself Against Phenmonia The type of pneumonia now prevailing is ter ork, New England and the country generall; are startling and ularming. Physicians are per placed and frightened, and camest agree how t treat it. The disease spares no one, but is expecmonia. Once attacked the progress of the mal-monia. Once attacked the progress of the mal-ady is read—usually to a fatal termination in three or four days. It is not at all time the pneu-monia of ten or teamty years ago. Enlety lies in prevention. Denot wait for the attack, but guard year lungs while year are yes well. Do this by wearing Bonson's Capcine Plas-ters constantly, changing when become are year a plaster on the back, between the shoutders, and another on the back, between the shoutders, and another on the lack, between the shoutders, and
